Additional Information

Pan-Asian Clinical Research Association (www.pacra.org)
'Founding Director' & initiator of an education & training focused non-profit organization. Activities included but were not limited to: Concept development. Identification of Board of Directors. Establishment of legal entity. Designed, organized, and oversaw the progressive development of the website. Developed and implemented a robust operational structure of "Country/Regional Directors." Developed and implemented financial systems with responsibility for profit & loss (P&L). Designed, developed, and delivered custom-made training modules for a broad client base. Conduct of limited number of sponsor audits. Ongoing review of strategy and its execution. Ongoing migration of the organization to meet resource constraints and changing external environment.

Founder: May 2009 to Present.

Asia Training Consortium (www.trainingconsortium.asia)
In conjunction with the Head of Merck Polytechnic Institute (MSD's R&D training group) built a pan-industry wide training consortium to raise the standards of clinical research training (and other pharma related trainings) whilst simultaneously reducing costs for member companies.
Activities included, but were not limited to: Successful establishment of the "for-profit organization" from concept to legal entity status. Designed initial workshop, membership meeting and output / deliverables. Recruited member companies, including ClinTec, Covance, RPS (now PRA), Novartis, Astellas, Microsoft and a host of other Pharma, CRO and healthcare / educational related companies. Developed and implemented a robust operational structure, including formation of work streams focusing on areas such as finance, marketing, curricula development, etc.

Board Director from launch in October 2011 to November 2013.

Memberships
Member of Pan-Asian Clinical Research Association (PACRA)
Member of Research Quality Association* (formerly BARQA) since 2013
(*Including successful completion of RQA Audit Course)
